ANOTHER SCIENTIFIC WONDER PEPSIN!

THE TRUE DIGESTIVE FLUID Or Gastric Juice! A GREAT DYSPEPSIA CURER, DREPARED from Rennet, or the fourth stoma of the Ox, after directions by Baron Likens TON, M D, No 11, North Eighth street, Philadel-

This is a truly wonderful remedy for INDIGES-TION, DYSPEPSIA, JAUNDICE, CONSTIPA-TION, LIVER COMPKAINT, and DEBILITY, tring after Nature's on method, by Nature's own method, the Gastric Juice. Half a teaspoonfull of this Fluid, infased in vater, will digest or dissolve Five Pounds or Roast

as meat and eggs, will be so softened, changed and digested, just in the same manner as they would be the human stomach.

BEEF IN ABOUT TWO HOURS, out of the Stomach.

Dr Perena, in his famous treatise on "Food and Diet," published by Fowlers & Wells, New York, page 36, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira. Dr Comse, in his valuable writings on the Phys iology of Digestion, observes that "a dimunition of the due quantity of the Gastric Juice is a prominent and all-prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted rith this complaint, finding everything else to fail, had recourse to the Gastrie Juice, obtained from

tely successful." Di Gariam, author of the famous works on Vegetable Diet," says: "It is a remarkable fact a physiology that the stomachs in animals, mace-ated in water, impart to the fluid the property of issolving various articles of food, and of effecting kind of artificial digestion of them in no wise ifferent from the natural digestive process."

Dr Sinon's great work, the "Chemistry of Man." Lea & Blanchard, Phila, 1846, pp 321-2) says:-'The discovery of PEPSIN forms a new era in the hemical history of Digestion. From recent exeriments we know that food is dissolved as rapidly in an an artificial digestive fluid, prepared from Pepsin, as it is in the natural Gastric Juice itself." Professor Duxormon, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from unimals, are well known. "In all cases," he says, "digestion oc

curred as perfectly in the artificial as in the natural digestions." AS A DYSPEPSIA CURER. Dr Houstron's preparations of PEPSIN has produced the most marvellous effects, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the very verge of the grave. It is impossible to give the details of cases in the limits of this advertisementbut authenticated certificates have been given of ore than TWO HUNDRED REMARKABLE CURES, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and at No 6. the cures were not only rapid and wonderful, but rmanent.

It is a great NERNOUS ANTIDOTE, and par icularly useful for tendency to bilious disord liver Complaint, Fever and Ague, and the evil effeets of Quinine, Mercury, and other drugs upon the Digestive organs, after a long sickness.
